EXPERIENCE

Software Developer Intern

Feb 2026 - Apr 2026

Riipen (Advance Ontario Program)

Toronto, ON

- Developed an AI real estate assistant with TypeScript and Next.js, using RAG with vector database search to deliver insights based on 1.3M+ live property listings.
- Integrated live property listing data to create dashboards for 52 cities and 300+ neighbourhoods across Ontario.

Machine Learning Engineer Intern

May 2025 - Aug 2025

RBC Borealis (Royal Bank of Canada)

Toronto, ON

- Integrated a notetaker service with MCP (TypeScript, Python, Kubernetes, CI/CD), making meeting data accessible to downstream LLMs.
- Built MCP servers for chart generation and Webex APIs, enabling LLM-driven CRUD operations on meetings.
- Demoed features to internal teams, and documented workflows for knowledge transfer.
- Assisted in load testing an internal AI chat assistant using Python Locust with 100+ concurrent users to identify performance bottlenecks under peak usage.

Software Developer Intern

Sep 2024 - Apr 2025

RBC Borealis (Royal Bank of Canada)

Toronto, ON

- Worked on Format Preserving Encryption service (Java Spring Boot, Python) for secure cloud migration of RBC metadata.
- Productionized services with Docker, Kubernetes, and CI/CD pipelines across Dev/QA/Prod environments.
- Developed a data loss prevention service to validate PII detection using Kafka, MariaDB, and Flyway.
- Helped develop data-protection services for analytics, AI training, and synthetic data generation.
- Created workflow documentation and ran knowledge transfers to make onboarding easier for developers.

EDUCATION

York University

Sep 2021 - May 2026

Bachelor's Degree in Digital Media (Computational Arts), Honours

Sheridan College

Jan 2020 - Jun 2021

Diploma in Computer Programming

PROJECTS

Insomnia [Game Link] | Unity, C#

- Led a 4-person team to build a Unity C# first-person game, architecting time-manipulation and physics systems and delivering a polished vertical slice presented to industry professionals.

Freyr: Know Your Plants [App Store Link] | React Native, Expo, TypeScript, Node.js

- Shipped App Store iOS app for plant care and identification achieving 20% early paid user conversion.

Model Kit Catalogue [Live Site Link] | React, TypeScript, Node.js, Express.js, MongoDB, JWT

- Built a full-stack React catalog app with rich product pages and search for 75+ monthly active users, plus Google OAuth + JWT persistent sessions and a Node/Express REST API backed by MongoDB.

Advanced Graphics & Simulation Systems [Examples Link] | Unreal Engine, HLSL, C++

- Built GPU-driven visual effects in Unreal Engine using compute shaders and procedural meshes, including butterfly flocking, noise-based snow and webbing, foliage wind, and dynamic cable/chain physics.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C#, C++, HLSL, SQL, Bash

Cloud & DevOps: Kubernetes, Docker, AWS S3, GCP, Git, Flyway, Expo, OCP

Databases & Data: PostgreSQL, MariaDB, MongoDB, Kafka, Data Pipeline

Frameworks & Libraries: React, Node.js, FastMCP, Spring Boot, Unity, Unreal Engine, Bootstrap, FastAPI
